### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION*****Information Disclosure Statement***

The information disclosure statement filed 26 April 2004 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Deroo (United States Patent No. 6,089,870) in view of Machida (United States Patent No. 6,426,149).

Deroo discloses a dental construct comprising a dental construct substrate and an image layer in the form of a decal composed of a colorant composition such as dental stains which are non-toxic and thus would be "substantially free of lead and cadmium". The construct and decal are fired at 1200-1800 degrees Fahrenheit to permanently affix the decal to the construct. Deroo discloses the invention essentially as claimed except for the ceramic layer covering the decal. Machida discloses a dental construct having an ornamental layer coated by a protective ceramic layer that is generally transparent and comprises at least one or both a ceramic material and a glaze material. It would have been obvious to one skilled in the art to provide the device of

Deroo with a transparent ceramic layer disposed over the ornamental decal in view of Machida in order to seal the decal and provide excellent durability and keep the design for a long time.

*Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
